

## **October 17: Men who derived dominance from God**

### **Bible passage: II Kings 5: 1-19a**

**Memory Verse: When the King of Israel read the letter, he tore his clothes in dismay and said, “This man send me a leper to heal! Am I God , that can give life and take it away?... ”. II kings 5: 7 (NLT)**

God’s kind of dominance is complete and is applicable to all aspects of our life here on earth. Until you gain control of all aspects of your life, you are not exercising God’s kind of dominance. If your expectation with respect to any area of your life is not met, then your work of dominance is not finished!

Today , we read the story of Naaman , the commander of the Syrian Army who enjoyed the great admiration of the King of Aram because through him the Lord had given Aram great victories. He was obviously a man of great wealth and authority. But though Naaman was a mighty warrior, he suffered from leprosy. He did not have complete dominance. The fact is that complete dominance over the forces of life can be derived only from the almighty God the creator of life himself. Until he got connected to Him who is superior to the natural – SUPERNATURAL, he was not free. Neither was his fame as a mighty warrior nor his connection with the King sufficient to get him the healing he passionately sought. Ensure you place reliance on the Creator and not any creature! He alone gives life and takes it away.

A young girl who understood how to get connected to the supernatural gave me the clue that led to his breakthrough. Do not under rate your relationships, no matter how superior you appear to be, it might be a pointer to your next level. Naaman gained dominance over his physical ailment when he connected to the supernatural through Elisa , the man of God by the testimony of a slave girl!.

God has opened several avenues for us to get connected to him. There is one very close to you, get connected today and get control over all aspects of your life.

#### **Prayer:**

Lord, please open my eyes to recognize the provision you have made for my breakthrough. Remove every BUT and defect in my life and grant me dominance in all areas of my life
